The Black AIDS Institute is working hard to educate communities on the prevention and advocacy of issues associated with this disease. Founded in May of 1999, the Black AIDS Institute is the only national HIV/AIDS think tank focused exclusively on Black people. The Institute's Mission is to stop the AIDS pandemic in Black communities by engaging and mobilizing Black institutions and individuals in efforts to confront HIV. The Institute interprets public and private sector HIV policies, conducts trainings, offers technical assistance, disseminates information and provides advocacy mobilization from a uniquely and unapologetically Black point of view.

Our motto describes a commitment to self-preservation: "Our People, Our Problem, Our Solution."

Organization

This would be a good place to insert a short paragraph about your organization. It might include the purpose of the organization, its mission, founding date, and a brief history. You could also include a brief list of the types of products, services, or programs your organization offers, the geographic area covered (for example, western U.S. or European markets), and a profile of the types of customers or members served.

It would also be useful to include a contact name for readers who want more information about the organization.
